

Stay Ahead of Social Engineering Attacks

Always keep your defences up when talking with people you don't know!

Here's a payment link. If you can fill in your details ASAP then I'll get payment through to that account.

<https://paypal.com/sendpayment?id=1123add443fjhsgdfhg4>

cheers x

You're more likely to fall for scams on communication channels you only use for friends and family.

Revealing too much personal information online can compromise your security.

Scammers often make fake accounts to commit a range of fraudulent activities.
