

WHY CHOOSE

MetaCompliance®

Unleash the Power of Personalised Security Awareness Training

When it comes to choosing a cyber security awareness specialist, it's important to find the right fit for your organisation. With the ever-increasing sophistication of cyber threats and the mounting pressure on organisations, making an informed decision is crucial.

We're Leading The Way

Domain Expertise to Reduce Human-Born Risk

When it comes to reducing human-born risks, MetaCompliance shines with our extensive domain expertise and years of experience. We offer access to the latest knowledge and insights to help you stay ahead of evolving threats. MetaCompliance's commitment to ongoing learning and pushing the boundaries to reduce human-born risk gives us the edge.

Automated Awareness Campaigns

Automating your Security Awareness Training makes implementing an effective cyber awareness program easy, with minimal effort required. Our automated Security Awareness Training provides an engaging learning experience for end users, all year round, to ensure cyber security threats stay top of mind.

Reporting and Compliance Made Easy

Demonstrating regulatory compliance and improving reporting capabilities are vital for any organisation. We provide robust reporting features that allow you to create a clear audit trail and gain accurate insights into compliance awareness levels. Our emphasis on regulatory reporting and ease of use ensures you have the information you need at your fingertips.

Global Accessibility and Localisation

In today's global landscape, reaching a diverse audience is crucial. Our content is supported in over 40 languages and considers localised sensitivities. This ensures that Security Awareness Training is accessible and effective across different cultures and regions. Our commitment to localisation sets us apart.

Personalised Learning Paths for Your Audience

Our platform adapts to your organisation's cyber security landscape and user preferences to create an enhanced learning experience for your employees. Our flexible training solution provides valuable insights about your workforce to allow for continuous improvement and identify areas which may require further support.

Award-Winning eLearning Content

Engaging and effective eLearning content is at the heart of what we do. As employee engagement specialists, we help organisations find innovative ways to get the attention needed to drive behavioural change. Our award-winning eLearning library is expertly produced with personality in mind. Our content is not only informative but also captivating, making the learning experience enjoyable and memorable.

Integration with Microsoft Teams for Enhanced Adoption

With the MyCompliance Teams App, users can complete their Security Awareness Training without leaving the familiarity of the Microsoft Teams platform. This helps to increase user engagement, improve adoption levels, and make consumption easier.

Incident Management and Real-Time Threat Response

In the ever-evolving threat landscape, threat response is critical. With our automated incident management system, organisations can ensure that all the prescribed procedures have been taken to contain risks, prevent downtime, and stay in control during critical incidents.

Because We Care

Providing exceptional customer service is what sets us apart. At MetaCompliance, we exceed expectations to ensure customers have a world-class experience. We're dedicated to supporting your organisation to achieve its objectives, every step of the way.

“

Customers Love MetaCompliance

“The multi-language support is very key to us. The off-the-shelf contents are very rich, meeting most of our needs. The powerful phishing test function and the policy communication function are really nice and useful. They are appreciated also by end users”.

“MetaCompliance has a library of fun and engaging content. Short awareness videos are available for various categories. Best of all, they can be tailored together in a Campaign to automate the annual awareness program. No more setting dozens of reminders in my calendar; simply set it up at the start of the year and let it run.”

“The experience for the end-user is both modern and intuitive. Our staff have fully engaged with our security awareness program, with circa over 85% successful completion rate. A large part of that is the product provided by MetaCompliance. We ran a more manual security awareness program last year with newsletters and posters and did not get the same traction we currently have. The support provided by the MetaCompliance team is also very professional and first-class.”

“It is a superb customer experience start to finish, with great pre-sales support and excellent quality content delivered from an easy-to-use cloud portal or downloadable into a separate LMS. If you need to customise the content or delivery format, there is support on hand with some great experience and knowledge to tailor and fine-tune it for the business’s individual needs. Ultimately though, the team at Metacompliance care about you as a customer and support you fully from start to finish.”
